Smok: Japan smoking-area map

Smok is a free map of smoking areas in Japan.

Coverage / More than 20,000 places in all 47 prefectures.

Types of places / Municipal smoking areas, smoking rooms in stations and airports, shopping-centre smoking spots, convenience stores, cafés, tobacconists and more (10 kinds).

What a place shows / Whether cigarettes or only heated tobacco are allowed, indoor or outdoor, opening hours and floor where known, directions.

Street-smoking bans / In the Android app, a map layer for the 13 municipalities that ban smoking on the street across their whole area (12 Tokyo wards and Osaka City).

Platforms / A web map at smok.to/map that works in iPhone and Android browsers, and an Android app on Google Play. There is no iOS app yet.

Languages / Ten: English, Japanese, Korean, Traditional Chinese, Simplified Chinese, Thai, Vietnamese, German, French, Russian.

Price / Free. No ads. No account is needed to use the map.

Who runs it / The Smok team, an independent project not affiliated with any tobacco company.

Media rights / Smok Open Media Licence 1.0

Use anything in this kit, for anything: articles, guides, directories, ads, slides, social posts, memes, criticism and commercial work. Edit it as you like: crop, resize, translate, recolour, remix. You do not need to ask us, and you do not need to credit us. A link to https://smok.to/ is welcome. Only three things are not allowed: pretending to be Smok, building or promoting a rival with our material, and claiming our material as yours (section 3). Keep the map attribution visible. See file-specific third-party terms at https://smok.to/press/license/.
